We are all very fortunate that we have the ability to attend Blessed Sacrament School. Unfortunately some people are not as fortunate, so Blessed Sacrament Football is starting a program where we will hold at least 1 event per year where we give back to the community. We have chosen Second Harvest of Coastal Georgia for our first event. We are expecting all of our young men that do not have a previous conflict to participate and we welcome several parents to assist as chaperones. If you do have a conflict please contact me personally. We are very excited about this program and what it will do to continue to develop our young men off the field.

Thank you for your continued support!
