

## **Math Camp Rising 6<sup>th</sup> and 7<sup>th</sup>**

The skill curriculum will be customized for each child so this camp is useful for review and/or remediation. Skills include the four basic operations plus fractions, decimals, and percents. More advanced campers develop their skills in integers, absolute value, order of operation, exponents, radicals, and complex fractions.

**The camp will run for 4 days Cost: \$160.00 for the week**

**Time: 9:30-12:00 PM**

**Session: Week July 22-25 Monday - Thursday**

**This session is predominately devoted to review of basic skills to aid them in moving more smoothly into the next course. If there is a skill or particular area of study you would like me to include for your child, I am happy to do so. I will provide each student with paper, pencils, worksheets, and calculators.**

**Each day we will cover several concepts, play math games and do a little cooking. I will provide a snack for children each day.**

**Any question? Please contact me, Mrs. Mary Beth Maguire 912-660-3946**

**To reserve a spot, please send in a deposit of \$25.00 for the week and fill out the form on the attached page indicating your child plans to attend. Keep this page as your reminder. I will limit the class to 10**

**students. This will be held at my home: 123 Full Moon Lane**

Go south on Waters Avenue, or go south on the Truman Parkway until Diamond Causeway. Exit and turn Left. Go to the first stop light. Take a right onto Ferguson Avenue. Take a left onto Lehigh Avenue, which is about .1 mile after you turn. Turn left into our subdivision Moon River Bay. The gate code is #2165.

**Please save this and return the second page with your deposit.**

**My child (name) \_\_\_\_\_ will attend Math camp for rising 6<sup>th</sup> and 7<sup>th</sup>**

**I would like to reserve a spot in (please check which weeks apply)**

**Session: Week (July 22-25) \_\_\_\_\_ Monday–Thursday 9:30-12:00 PM**
