

Transform Your Child's Summer!

Did you know that kids can actually *lose* math skills while school is out? Studies have shown that students can regress by up to two and a half months over the summer — a phenomenon known as “the summer slide.” At Mathnasium, we turn this around with Summer Workout Plans focusing on fractions, multiplication, algebra readiness, and more. We prevent the summer slide, give kids an edge for the next school year, and we make it fun!

Teaching math is not just what we do, it's all we do. Mathnasium is the authority in math education, with over 1,000 learning centers worldwide.

Keep your child from sliding backward this summer.

Schedule a no-obligation first visit with us to find out how!
